

Oslo / Geneva, Oct 29th 2015

Statement

Mrs. Mihaela Marcella Crisan-Vida, b. 01.03.1985, served the European Federation for Medical Informatics (EFMI) as Assistant to the Board during the period November 2012 – October 2015. She has been helpful and instrumental in her role and in particular assisted the EFMI Secretary during our Board meetings and in preparing the federation's annual report. Furthermore, Mrs Crisan-Vida contributed to set up some of our communication resources under the leadership of our Press and Information officer, in particular the new EFMI website, sketching the technical design and populating the site. She worked at a distance with Austria.

We enjoyed collaborating with Mihaela, she was always available and forthcoming, positive and willing to help. She fulfilled her work with diligence and was always well prepared for the board and the council meetings. In her role as assistant to the EFMI Board, she gained experience from international collaboration and exposure to work at the European level.

EFMI is a not-for-profit organization involved in the scientific work on theory and practice of information and communication technology as applied in biomedical sciences and health care in a European context. EFMI facilitates the activities of its member national associations and institutions across Europe and participates internationally through IMIA, the International Medical Informatics Association.

Please do not hesitate to contact us in case of further inquiries.

Respectfully,

Anne Moen
President, EFMI
