

## Exploring Cloudy Collaboration in Healthcare: An Evaluation Framework of Cloud Computing Services for Hospitals

F Gao, S Thiebes, A Sunyaev - *System Sciences (HICSS), 2016 ...*, 2016 - [ieeexplore.ieee.org](http://ieeexplore.ieee.org)

Abstract: Cloud computing (CC) is regarded as having the potential to facilitate collaboration in the hospital sector. Yet, adoption of cloud computing services (CCS) in hospitals is low.

While a well-designed evaluation of CCS can promote informed adoption decision-making,
