i10-index	17	13

TITLE	CITED BY	YEAR
Malicious node detection in wireless sensor networks using an autoregression technique DI Curiac, O Banias, F Dragan, C Volosencu, O Dranga Networking and Services, 2007. ICNS. Third International Conference on, 83	75	2007
Redundancy and its applications in wireless sensor networks: a survey DI Curiac, C Volosencu, D Pescaru, L Jurca, A Doboli WSEAS Transactions on Computers 8 (4), 705-714	44	2009
Ensemble based sensing anomaly detection in wireless sensor networks DI Curiac, C Volosencu Expert Systems with Applications 39 (10), 9087-9096	41	2012
Bayesian network model for diagnosis of psychiatric diseases DI Curiac, G Vasile, O Banias, C Volosencu, A Albu Information Technology Interfaces, 2009. ITI'09. Proceedings of the ITI 2009 ...	37	2009
Discovery of malicious nodes in wireless sensor networks using neural predictors DI Curiac, C Volosencu, A Doboli, O Dranga, T Bednarz WSEAS Transactions on Computers Research 2, 38-43	26	2007
Towards Wireless Sensor, Actuator and Robot Networks: Conceptual Framework, Challenges and Perspectives DI Curiac Journal of Network and Computer Applications 63, 14-23	24	2016
Anchor node localization for wireless sensor networks using video and compass information fusion D Pescaru, DI Curiac Sensors 14 (3), 4211-4224	21	2014
Combined malicious node discovery and self-destruction technique for wireless sensor networks DI Curiac, M Plastoi, O Banias, C Volosencu, R Tudoroiu, A Doboli Sensor Technologies and Applications, 2009. SENSORCOMM'09. Third ...	20	2009
Cities of the future: Employing wireless sensor networks for efficient decision making in complex environments A Doboli, D Curiac, D Pescaru, S Doboli, W Tang, C Volosencu, M Gilberti, ... arXiv preprint arXiv:1808.01169	18	2018
Chaos-based cryptography: end of the road? DI Curiac, D Iercan, O Dranga, F Dragan, O Banias Emerging Security Information, Systems, and Technologies, 2007. SecureWare ...	18	2007
Developing 2 D Chaotic Trajectories for Monitoring an Area with Two Points of Interest DI Curiac, C Volosencu WSEAS International Conference. Proceedings. Mathematics and Computers in ...	17	2009

TITLE	CITED BY	YEAR
Energy saving strategy for video-based wireless sensor networks under field coverage preservation D Pescaru, C Istin, D Curiac, A Doboli Automation, Quality and Testing, Robotics, 2008. AQTR 2008. IEEE ...	17	2008
A 2D chaotic path planning for mobile robots accomplishing boundary surveillance missions in adversarial conditions DI Curiac, C Volosencu Communications in Nonlinear Science and Numerical Simulation 19 (10), 3617-3627	15	2014
Hierarchical approach for intelligent lighting control in future urban environments C Volosencu, DI Curiac, O Banias, C Ferent, D Pescaru, A Doboli Automation, Quality and Testing, Robotics, 2008. AQTR 2008. IEEE ...	14	2008
Urban traffic control system architecture based on wireless sensor-actuator networks DI CURIAC, C VOLOSENCU Proceedings of the 2nd International Conference on Manufacturing Engineering ...	13	2010
Wireless Sensor Network Security Enhancement Using Directional Antennas: State of the Art and Research Challenges DI Curiac Sensors 16 (4), 488:1-15	12	2016
Chaotic trajectory design for monitoring an arbitrary number of specified locations using points of interest DI Curiac, C Volosencu Mathematical Problems in Engineering 2012	12	2012
Path planning algorithm based on Arnold cat map for surveillance UAVs DI Curiac, C Volosencu Defence Science Journal 65 (6), 483-488	8	2015
Reliable field of view coverage in video-camera based wireless networks for traffic management applications C Istin, D Pescaru, H Ciocarlie, D Curiac, A Doboli Signal Processing and Information Technology, 2008. ISSPIT 2008. IEEE ...	8	2008
Problem setting and modeling in vehicles and pedestrians traffic control using sensor networks O Banias, RE Precup, DI Curiac Applied Computational Intelligence and Informatics, 2007. SACI'07. 4th ...	8	2007
