International Seminar on Computational Intelligence ISCI'2024

21 - 22 August 2024, Tijuana BC, México

We want to express our gratitude to: **Prof. Dr. Radu-Emil Precup**

For delivering the Plenary Talk entitled: **Model-based and model-free low-cost fuzzy controllers**

During the technical program of the International Seminar on Computational Intelligence “ISCI 2024”, which was organized by the IEEE Computational Intelligence Society-Mexico Chapter and Division of Graduate Studies and Research –Computer Science Programs of the Tijuana Institute of Technology, on August 21-22, 2024. The Plenary Talk was very important for the technical program of this international event.

Prof. Dr. Patricia Melin
